

Test Prep Pep Rally! **Student Notes**

Ask members of the community to write a personalized note to a student in your class. Use this chart to make sure that each student will receive a note for each testing day. Be sure to give members of the community plenty of advance notice to write and return the note to you. If you are collecting the notes via email, we highly recommend printing them for each student so that they can have it next to them or near them during the day of the test.

Please feel free to make this message your own. Copy and paste it if you are emailing members of the community. Or use it in your daily communication with family and caregivers.

Dear _____,

As you know members of Class _____ will be taking their state test on _____ (date).

It would mean a lot to the students if they received a word of encouragement from you as a part of the community. Please jot a note to: _____.

Be sure to return the note to me by _____ (date). I will be sure they receive it on the day of the test!

Thank you for supporting the students of our school! They have been working diligently all year long on their reading, writing, and thinking! They are very proud of their learning!

Sincerely,
